

CITIZENS FOR BALANCED USE
LEGISLATIVE SCORE CARD 2009

Citizens for Balanced Use (CBU) is a multiple-use organization that advocates the protection of private property rights, recreation access of all kinds to public lands, the continued management of public lands for natural resource development and the continuation of the traditional Montana way of life, including hunting, fishing and trapping.

CBU actively participated in the 2009 Montana Legislature to support this agenda, with great success. But along the way, we learned that the people of Montana need to know more about what their elected Representatives and Senators are doing for them in Helena. Many legislators are unsung heroes, while others are wolves in sheep's clothing. We prepared this legislative score card to show what we supported and how your elected officials voted.

CBU 2009 Bills of Interest

HB 44 – Revise DNRC Participation in Federal Forest Management Planning

Sponsor: Rep. Chas Vincent, R-Libby

Overview: Requires the state to be involved in federal land planning through cooperating agency status and through coordination, and allows the state to assist local government in doing the same. Gives state and local governments more authority in federal land management decisions.

Final Status: Became Law.

Passed House 98-0. Passed Senate 48-1.

CBU Position: Support

HB 139 – DNRC Intervention Authority in Federal Forest Management Projects

Sponsor: Rep. Chas Vincent, R-Libby

Overview: Allows the state to intervene in federal forest management projects if there is a significant risk to the health or safety of the public. This is specifically aimed at reducing fuel loads in Montana forests to prevent catastrophic wildfires.

Final Status: Became Law.

Passed House 98-0. Passed Senate 44-6.

CBU Position: Support

HB 140 – Increase Excess Sustained Yield Authority for Forest Health

Sponsor: Rep. Chas Vincent, R-Libby

Overview: Allows the state to increase the sustained yield of timber harvest from state forests if the increase is used and necessary to address forest health concerns. This bill gives Montana the flexibility to address things like pest infestations, deadfall and other forest health concerns while keeping a sustained harvest plan in place.

Final Status: Became Law.

Passed House 80-20. Passed Senate 43-6.

CBU Position: Support

HB 150 – Montana Recreation Responsibility Act

Sponsor: Rep. Dee Brown, R-Hungry Horse

Overview: Requires participants in recreation activities to knowingly assume the inherent risk of their sport or activity, which protects landowners and recreation activity hosts and sponsors from frivolous lawsuits.

This bill still protects injured recreationists from gross negligence, but does not force landowners and sponsors to choose between supporting recreation or supporting their own livelihoods.

Final Status: Became Law.

Passed House 64-29. Passed Senate 34-16.

CBU Position: Support

HB 190 – Clarify Bridge Access Law

Sponsor: Rep. Kendall Van Dyk, D-Billings

Overview: Allows landowners to attach fences to bridges and anglers to use road rights-of-way to access streams for recreation. Exempts landowners from most liability, clarifies that recreational access cannot be created through prescriptive use, and allows the continued use of wood-rail fences.

Final Status: Became Law.

Passed House 96-3. Passed Senate 48-2.

CBU Position: Initially opposed, but supported with the Senate amendments that we supported with the Montana Stockgrowers and United Property Owners of Montana.

HB 253 – Wild Buffalo Recovery and Conservation Act

Sponsor: Rep. Mike Phillips, D-Bozeman

Overview: Would have transferred bison management from the Dept. of Livestock to FWP, which would have eliminated all federal funding for bison management. It would have also caused a serious impact upon agriculture in Montana by allowing a disregard for the serious problem of brucellosis containment and management in Montana.

Final Status: Dead.

Failed in House committee 7-10.

CBU Position: Opposed

HB 314 – Game Animal Damage Mitigation Act

Sponsor: Rep. Kendall Van Dyk, D-Billings

Overview: Was designed to give FWP the ability to declare certain private land open to public use for big game hunting. This is one of the biggest potential attacks on private property rights in the legislature. It would have given FWP control over private property under the auspices of trying to mitigate damage to private property from game concentrations. Landowners would have lost the ability to control who came on their land for hunting purposes.

Final Status: Dead.

Failed in House committee 0-18.

CBU Position: Opposed

HB 455 – Big Sky Rivers Act

Sponsor: Rep. Michelle Reinhart, D-Missoula

Overview: Would have prohibited any building within 250 feet of ten major Montana rivers. This was the main stream-side setback bill of the session, and it would have constituted an egregious taking of private property.

Final Status: Dead.

Failed House committee 9-9.

CBU Position: Opposed

HB 542 – Review Motorsports Manufacturers Unfair Trade Practices Laws

Sponsor: Rep. Gordan Vance, R-Bozeman

Overview: Requires motorsports manufacturers to treat Montana motorsports dealers in a fair manner. It prevents manufacturers from imposing unfair and abusive trade practices on dealers, which is essential to Montana small businesses in this area and which is helpful to Montana motorsports buyers.

Final Status: Became Law.

Passed House 99-1. Passed Senate 50-0.

CBU Position: Support

HB 614 – Crime to Ride Off-Highway Vehicles on Closed Public Lands

Sponsor: Rep. Gary MacLaren, R-Victor

Overview: An attempt to give Montana FWP officers the authority to go on federal lands and enforce federal travel management decisions through state citations. It creates a problem for Montana residents because they could be subjected to double jeopardy by prosecution in both state and federal courts. It also creates a problem where state officers do not understand or keep up to date on ever-changing travel plans and would subject Montanans to harassment. CBU supports effective and common-sense enforcement, but this is not it.

Final Status: Dead.

Tabled in House committee 7-5.

CBU Position: Oppose

SB 31 – Revise Qualifications for FWP Commissioners

Sponsor: Sen. Keith Bales, R-Otter

Overview: Would have required that one of the five FWP commissioners be a landowner with at least 1,280 acres of land in order to bring more experience with landowner-sportsmen relations to the commission. The current agricultural representative qualifications are too broad and allow appointees who do not truly understand or represent agriculture and land owners on the commission.

Final Status: Dead.

Passed Senate 27-20. Failed House committee 9-9.

CBU Position: Support

SB 162 – Restrict Ability to Limit Hunting Permits for Certain Species

Sponsor: Sen. Debby Barrett, R-Dillon

Overview: Prevents the Fish, Wildlife and Parks Commission from limiting hunting permits for certain species when the harvest and population levels do not justify the limit. Requires permit calculations for archery and rifle seasons to be calculated separately. Requires FWP to base hunting permits on populations, not on efforts to impact private property and other political factors.

Final Status: Dead.

Failed Senate 23-27.

CBU Position: Support

SB 163 – Make Hunting and Fishing Rules Subject to Economic Impact Statement

Sponsor: Sen. Debby Barrett, R-Dillon

Overview: Requires the Fish, Wildlife and Parks Commission to make hunting and trapping permit changes subject to an economic impact statement. Forces FWP to fully understand and consider the economic benefits of hunting and trapping to Montana.

Final Status: Dead.

Tabled in Senate committee 4-5.

CBU Position: Support

SB 164 – Revise FWP Land Management and Acquisition re: Good Neighbor Policy

Sponsor: Sen. Debby Barrett, R-Dillon

Overview: Requires FWP to set aside a certain amount above the purchase price of new properties it acquires for the purpose of maintenance and weed management.

Final Status: Became Law.

Passed Senate 26-23. Passed House 100-0.

CBU Position: Support

SB 213 – Require FWP Plan to Manage Wildlife to Prevent Disease Transmission

Sponsor: Sen. Keith Bales, R-Otter

Overview: Directs FWP to manage game animal populations with the goal of preventing disease transmission.

Final Status: Dead

Passed Senate 49-0. Failed House committee 9-9.

CBU Position: Support

SB 217 – Reimburse Livestock Producers for Tests for Disease Transmitted by Wildlife

Sponsor: Sen. Debby Barrett, R-Dillon

Overview: Would have required FWP to use non-sportsmen dollars to reimburse producers for brucellosis tests.

Final Status: Dead, but funding included in the budget.

Passed Senate 26-23. Tabled in House committee.

CBU Position: Support

SB 228 – Prioritize Protecting Humans, Livestock and Pets from Predators

Sponsor: Sen. Debby Barrett, R-Dillon

Overview: Specifies state policy on wolf management. Clarifies that the first priority of predator management is to protect humans, then livestock and pets, from harm. It ensures that predator species concerns are secondary to those considerations.

Final Status: Became Law.

Passed Senate 34-15. Passed House 87-13.

CBU Position: Support

SB 347 – Revise Laws Governing ATV Registration and Use

Sponsor: Sen. Rick Laible, R-Darby

Overview: Required license plates on ATV's instead of registration decals. It would have increased the cost of registration, interfered with lights, cargo and rider safety. It is another part of the environmentalist war on motorized recreation.

Final Status: Dead.

Tabled in Senate committee 9-0.

CBU Position: Oppose

SB 383 – Require Full-Size License Plates on ATVs and Off-Highway Vehicles

Sponsor: Sen. Jesse Laslovich, D-Anaconda

Overview: This bill would have required full-size license plates on ATV's. This bill raises safety concerns because the large size of license plates can cause problems with cargo, lights, rider safety and other issues. It is also another part of the environmentalist war on motorized recreation.

Final Status: Dead.

Tabled in Senate committee 6-3.

CBU Position: Oppose

SB 402 – Clarify Property Rights for Which Just Compensation is Due When Taken

Sponsor: Sen. Jim Peterson, R-Buffalo

Overview: Would have defined what should be considered “property” for the purposes of Constitutional protections against government takings.

Final Status: Dead.

Passed Senate 31-18. Failed motion to bring to House floor 49-49.

CBU Position: Support

SB 435 – No Net Gain in State Land

Sponsor: Sen. John Brenden, R-Scobey

Overview: Would have required state agencies to sell similar parcels of land to offset new purchases as a way to slow the growth of government land ownership.

Final Status: Dead

Passed Senate 25-24. Failed House committee 9-9.

CBU Position: Support

SJ 7 – Opposition to SR 2421

Sponsor: Sen. John Brenden, R-Scobey

Overview: Resolution to Congress urging opposition to SR 2421 and similar federal measures designed to give federal control over all surface waters in the US. This bill is essential to maintaining state’s rights and our local authority over Montana water.

Final Status: Dead.

Passed Senate 31-18. Failed House committee 9-9.

CBU Position: Support

SJ 7 – Management of the Galton Study Area

Sponsor: Sen. Aubyn Curtiss, R-Libby

Overview: Resolution to Congress urging multiple-use management by the Forest Service of the Galton Study Area in the Kootenai National Forest. Calling for timber management to prevent catastrophic wildfires, and continued multiple-use recreation access. Urging the federal government to seek coordination with the Montana legislature and local governments before making any road or management decisions that would diminish its multiple-use qualities.

Final Status: Dead

Passed Senate 33-17, Died in House committee 9-9.

CBU Position: Support

Multiple Use Champions

Twenty-four Senators and forty-nine Representatives scored a 90% or higher on CBU's evaluation. This shows that multiple-use advocates are in the main stream of Montana and you should not believe those who claim your way of life is a thing of the past. We thank all of our legislative advocates who believe, as we do, that we have a right to continue to live on the land.

CBU would also like to recognize a few key legislators who fully embody our values and traditions – they support the protection of private property rights, they fearlessly advocate your right to access and enjoy public land, and they cherish the traditions of resource management and recreation that make Montana what it is today. These leaders went above and beyond the call of duty in championing multiple-use.

House

Rep. Dee Brown – Sponsor of House Bill 150, the Recreation Responsibility Act.

Dee Brown has protected the right of Montanans and their visiting friends to enjoy the outdoors without fear of a frivolous lawsuit that could take away your land or livelihood. She fought continuously and courageously for the common sense notion that you assume the risk of a sport or recreation activity if you participate. When you enjoy the outdoors, thank Dee Brown.

Rep. Deborah Kottel – Common-sense advocate at every turn.

In addition to her strong support for Reb. Brown and HB 150, Deb Kottel has been an eloquent and energetic supporter of your right to hunt, fish, recreate, protect your private property and in general live your life without harassment. She was the key vote in defeating HB 614, a measure to turn motorized recreationists into criminals. She supported us when we needed her most. She deserves your gratitude.

Rep. Chas Vincent – Leader on resource management.

Chas Vincent carried and passed half a dozen important bills to improve your chances to continue the Montana way of life you grew up with. From helping local and state governments have more say in federal land decisions to attacking the dangerous fuel loads in forests all over this state, his tireless and passionate efforts brought him the distinction as the single most effective legislator in passing a pro-multiple use agenda. He is a leader for the future.

Rep. Gordon Vance – Fabulous freshman.

In only his first term in the legislature, Gordy Vance has emerged as a leader and a trusted advocate for property rights and multiple-use of public lands. He carried HB 542 to address unfair trade practices within the motorsports industry, which will help Montana dealers survive and will help you get a better deal on your next machine. He advocated private property rights at every turn. We are looking forward to his return in the next session. We can trust Gordy Vance.

Senate

Sen. Greg Barkus – Statesman on stream access.

Perhaps the most skilled work of the entire session occurred when Greg Barkus realized that the highly popular Stream Access Bill, HB 190, was deeply flawed and needed to be rescued from disaster. He worked patiently, diplomatically and skillfully to get the adoption of amendments in the Senate to protect landowners from excessive liability, to head off a whole new generation of lawsuits on prescriptive easement fights, and to allow wooden fences to work for everyone's benefit. He was the essential person at

the right time and place to craft a bill that works for everyone. He stood by landowners and recreationists and prevented a disaster in the making.

Sen. Debby Barrett – Unflinching advocate.

Debby Barrett knows and shares our commitment to private property rights, resource management, multiple-use and the continuation of the Montana way of life. She carried more legislation than any other Senator to advance our cause. She understands that wildlife management laws and rules that are crafted with ulterior motives can impede upon and threaten private property rights and multiple-use recreation.

Threats to Multiple-Use

CBU also feels strongly about informing you of legislators who demonstrate they do not support your interests of private property rights, multiple-use access of public lands, resource management, and the continuation of the traditional Montana way of life. Following are the Representatives and Senators who distinguished themselves as the lowest-scoring members of the legislature on bills that support you. We list anyone with a score under 70% in the House and under 60% in the Senate.

House
